

Environmental Policy

SGP Civil is committed to satisfy applicable requirements and continual improvement of the environmental management system. Undertaking its business in an ethical manner recognising the importance of environmental protection and the use of sustainable resources through our civil engineering and construction services Integrated Management System Framework to provide:

Compliance

Conducting our operations in compliance with all applicable environmental acts, regulations, statutory and client requirements.

Best Practice

Applying waste minimisation principles and taking all practicable steps to prevent pollution and other adverse effects on the environment from our operations, with a focus on energy and resource efficiency.

Certification

Establishing, maintaining, monitoring, auditing and improving the environmental management system and programs that are certified to ISO 14001.

Training

Educating and training our employees to continually improve awareness, skills and knowledge of environmental issues and best practices.

Objectives & Targets

Establishing, measuring and reviewing objectives and targets and taking the necessary action to continually improve and report honestly on our environmental performance.

Subcontractor Management

Monitoring and evaluating the environmental performance of subcontractors and suppliers, maintaining effective communication with them and encouraging them to adopt international environmental standards.

Sustainable Development

Supporting ecologically sustainable development initiatives that are consistent with current technical knowledge and enhancing environmental performance.

Management fully endorse this Policy and the formal Integrated Management System (IMS) which has been fully implemented through all areas of the Company and are encouraged to consider the broader community expectations when engaged in any Company activity. It is the responsibility of all management and staff to ensure the IMS is understood, implemented and maintained throughout the Company.
